

Flexothane Spray Suits

SPRAY OVERALL SIOEN FLEXOTHANE ESSENTIAL

This full protection overall is made of polyurethane and is liquid proof. Provided with an elastic brim in the hood, trousers and sleeves. Ideal overall for the tropics as it is very comfortable to wear.

Qualities:

- Durable and light
- Weight 750 grams per overall
- Breathable material
- Liquid proof
- Double covered zipper
- Stretching material
- Different sizes available
- Washable

Sizes S - XXL

SPRAY OVERALL SIOEN FLEXOTHANE CLASSIC

In principle the same overall like the Flexothane Essential, however both the polyurethane layer and the textile inner work are of a thicker and better quality which makes this overall as a whole more durable.

Qualities:

- More durable than Flexothane Essential
- Weight 850 grams per overall
- Breathable material
- Liquid proof
- Double covered zipper
- Stretching material
- Different sizes available
- Washable

Sizes S - XXL

ROSE SPRAYING OVERALL SIOEN FLEXOTHANE & DUOTEX

The upper part is made of Flexothane Essential and therefore has the same comfort qualities as the Sioen Flexothane overall. Reinforced legs made of Duotex give thorns no grip and make this overall the best option for spraying thorny crops like roses.

Qualities:

- Durable specially in thorny crops
- Duotex legs give extra protection especially in rose crops where bending is done
- Weight 850 grams per overall
- Liquid proof
- Double covered zipper
- Elastic brim around the hood, sleeves and trousers
- Upper part made of comfortable material
- Different sizes available
- Washable

Sizes M - XL

ROSE SPRAYING OVERALL SIOEN FLEXOTHANE & CHEMTEx

Best spray overall in the market. Whole overall made of Flexothane Classic. The legs have an extra protecting layer of Chemtex welded on. At the end of the legs this folds back inside for 10cm keeping water from crawling up along the inner fabric. Chemtex offers better persistence against thorns and lasts longer. An overall that gives maximum protection in combination with the comfort qualities of a regular Sioen Flexothane overall.

Qualities:

- Durable specially in thorny crops
- Chemtex legs give extra protection especially in rose crops where bending is done
- Weight 1100 grams per overall
- Liquid proof
- Double covered zipper
- Welded seal between Flexothane and Chemtex
- 10cm fold back at the end of the legs
- Complete textile inner work
- Elastic brim around hood, sleeves and trousers
- Upper part made of comfortable material
- Different sizes available
- Washable

Sizes M - XL
