STORAGE and TRANSPORT

The product must be segregated from combustibles and other incompatible substances. This includes explosive, flammable, toxic, infectious and corrosive (Class 1,2,3,4,6 and 8). Store in a cool dry place. Do not carry on a passenger service vehicle.

SAFETY DATA SHEET:

A Safety Data Sheet should be available at all work places where Blossom Booster™ 3-18-27 is stored or used (available from Gro-Chem or www.grochem.co.nz)

DISPOSAL:

This product should be disposed of by use in the manner described on the label, or by depositing it in an approved landfill. Segregation from products of Class 1, 2, 3 and 4 must be maintained after disposal unless the properties of the product have been altered to remove the hazardous properties.

Dispose of empty packaging by burying in an appropriate landfill. DO NOT burn.

Approved Pursuant to the HSNO Act 1996, under the Fertilisers (Oxidisers [5.1.1]) group standard. No HSR002570. See www.ermanz.govt.nz for approval conditions

CONDITIONS OF SALE:

As no control can be exercised over the manner in which or the conditions under which this product is used, all conditions and warranties expressed or implied, other than those required by statute are excluded. No responsibility will be accepted for any damage or injury whatsoever arising from the storage, handling, application or use of this product.

DIRECTIONS FOR USE:

GRO-MORE Blossom Booster™ 3-18-27 has been especially formulated for use with Calcium Nitrate as a blossom booster for orchids grown under New Zealand conditions. It has been formulated with a low nitrogen level, so that calcium nitrate can be applied at the same time without upsetting NPK ratios.

Features: Fully soluble; Chelated trace elements; No precipitation or nozzle blocking; Buffered; Safe on foliage.

General use instructions: Blossom Booster™ 3-18-27 should be dissolved in water to a maximum concentration of 1kg in 4L of water. Hot water will speed up the process.

Direct tank feeding: Dissolve 0.9kg of Blossom Booster 3-18-27™ and 0.45kg Calcium Nitrate per 1000L of water.

Injection: For an injection ratio of 100:1, dissolve 9.0kg Blossom Booster™ 3-18-27 and 4.5kg Calcium Nitrate in 100L water.

Conductivity (at 20degC): A solution of 0.9kg Blossom Booster™ 3-18-27 and 0.45kg Calcium Nitrate gives a CF reading of 13.0. Remember to add the CF of the irrigation water to this figure.
