

Get the perfect fruit with

WUXAL® Ascofol and **WUXAL®** K40

WUXAL K40

Get both size and quality with this highly concentrated potassium-rich foliar fertiliser for supplementary nutrition.

- Increases fruit size through cell enhancements.
- Improves firmness, and fruit surface colour.
- Packed with Potassium and micronutrients readily available to the plant.
- Has a stabilising effect on plant health.

WUXAL Ascofol

If your orchard suffered from heat or water stress this summer, Wuxal Ascofol will be just what your fruit need. Wuxal Ascofol is a highly concentrated suspension of *Ascophyllum nodosum*, a seaweed rich in micro-nutrients and naturally occurring bioactive compounds, that will stimulate your trees' growth and natural defences against stress-related conditions.

Talk to your local Horticulture rep for more information on Wuxal® products and the complete Wuxal® foliar nutrient strategy for avocado.
