

Size AND quality

Don't make any compromise

Wuxal K40

A highly concentrated potassium-rich foliar fertiliser made in Germany for supplementary nutrition.

- Improves sugar content, firmness and fruit surface colour.
- Increases fruit size through cell enhancement.
- Has a stabilising effect on plant health.
- Safe and easy to handle.

NovaTec Solub + Kali Trace Hi K

This special fertigation solution combines a sustained nitrogen water soluble fertiliser with a high Potassium & Magnesium product to enhance fruit quality.

- Sustained Nitrogen supply and reduced Nitrogen losses.
- Improves plant uptake of nutrients & trace nutrients.
- High trace micronutrient composition (options with enhanced Manganese and no Boron).
