Drive your crops' performance with Compo Expert, the high quality innovative specialty fertilisers from Europe. Their range includes NPK special mineral fertilisers, fertilisers with nitrification inhibitors, slow-release fertilisers, coated and partly-coated slow-release fertilisers, nutrient salts, liquid fertilisers and trace element fertilisers.

Blaukorn®

A premium quality granular fertiliser for base and side dressings in chlorine-sensitive crops.

- ✓ potassium from SOP
- ✓ fast acting nitrogen source with both ammonium and nitrate N
- ✓ includes magnesium, sulphur and micro-nutrients
- ✓ industry leading granule strength and dust free.

NovaTec®

An innovative granular fertiliser using the latest sustained-nitrogen technology to reduce nitrogen losses from leaching and volatilisation. For base and side dressings in chlorine-sensitive crops.

- ✓ reduced leaching = reduced number of applications
- ✓ improved yield and quality due to extended N supply
- ✓ positive pH effect in the rootzone
- ✓ potassium from SOP
- ✓ includes magnesium, sulphur and micro-nutrients.
