

Nutrient deficiencies?

Get your **WUXAL**[®] strategy sorted

WUXAL[®] Boron

The highly concentrated foliar fertiliser to overcome boron deficiency in a quick and safe way.

- Reduces hollow-stem in brassica
- Helps plants cope with stress in early growth
- Improves resistance to drought stress in young plants
- Guarantees phosphate supply during unfavourable conditions.

WUXAL[®] Magnesium

A foliar fertiliser for the control of magnesium and micronutrient deficiency in vegetables.

- Stimulates growth on dull days
- Amino acids and peptides help reduce physiological stress
- Improves plant health
- Extraordinary adhesiveness—no wash off from the foliage.
