

Spreadwet 1000

Premium Biodegradable Non-Ionic Surfactant (1000 Grams Per Litre)

For Use With

- Insecticides
- Fungicides
- Herbicides

Performance Characteristics

- Outstanding low equilibrium surface tension (EST)
Spreadwet 1000 - 29.6 dynes per cm
- Efficient droplet spread and leaf coverage

Excellent Solubility And Compatibility

- Disperses easily in spray tank
- Compatible with most pesticides

Low Foaming And Biodegradable

- Generates minimal foam in spray tank

Excellent Dynamic Surface Tension (DST)

- Spray droplets achieve good coverage and retention

Use Rates

- Horticultural sprays
High volume sprays - 25ml per 100 litres of spray solution
Insecticide and fungicide sprays - 25ml per 100 litres of spray solution
Protected glasshouse sprays - 10ml per 100 litres of spray solution
- Weed killing sprays
Low volume boom sprays - 100ml to 150ml per 100 litres of spray solution

Pack Sizes

- 1 Litre
- 5 Litres
- 20 Litres
