

SAFETY DATA SHEET

according to EC Directive 2001/58/EC

Date of issue: 30-01-2003

revised on: 02-04-2008

Page: 1 of 4

Trade name: WUXAL® Microplant
Product-No.: 21829

1 Company

Preparation: NK-suspension fertilizer with magnesium 5-10-(2) and with traceelement.
Description: Aqueous suspension of nutrient salts.
Use: Fertilizer, preparation for plant nutrition
Manufacturer/Supplier: AGLUKON Spezialdünger GmbH & Co. KG Telephone: +49 (0)211 5064-0
Address: Heerdter Landstraße 199 Telefax: +49 (0)211 5064-247
40549 Düsseldorf, Germany
Informing department: see chapter 16

Emergency telephone (D/Berlin): Telephone No.: +49 (0)30 19240 (Day and Night)

2 Composition/Information on Ingredients

Harmful components:

<u>Marking</u>	<u>CAS-No.</u>	<u>Content (%)</u>	<u>Danger symbol</u>	<u>R-phrases</u>
--	--	--	--	--
Additional information: The fertilizer composition is no hazardous preparation.				

3 Hazards Identification

Hazards designation: None
Particular hazards: None
Relevant information: No hazardous product as specified in Directive 67/548/EEC.
No hazardous product as specified in Directive 96/82/EG.
Harmful effects/symptoms: No information available.

4 First-Aid Measures

General hints: Remove soiled clothes.
after inhalation: Take out to the fresh air, rest quiet and warm. Medical assistance is necessary in case of difficulty in breathing.
of vapours/aerosols:
after skin contact: Immediately wash affected skin regions thoroughly with soap and plenty of water. Summon doctor if necessary.
after eyes contact: Thoroughly rinse eyes with lids wide apart under running water (protect the uninjured eye, remove contact lenses). Summon eye specialist if necessary.
after ingestion: Immediately rinse the mouth with water, then drink a lot of water. Consult the doctor in case of persistent trouble.

5 Fire-Fighting Measures

Suitable extinguishing media: Water, carbon dioxide, dry extinguishing media, foam.
Unsuitable extinguishing media: Unknown
Specific hazards: The material itself is harmless and hardly inflammable. Ambient fire may liberate hazardous vapours. If larger quantities of the product are on fire, the formation of nitrous gases and ammonia is possible.
Special equipment to protect firefighters: Do not stay in dangerous zone without suitable chemical protecting clothes and selfcontained breathing apparatus.
Other information: Contain escaping vapours with water.
Prevent fire-fighting water from entering surface water or groundwater.

6 Accidental Release Measures

Personal precautions: Avoid substance contact, dont inhale vapours/aerosols. Wear closed working clothes, protecting glasses, hand protection, and in case of vapours respiratory protection.
Remove soiled clothes.
Specific hazards: The material itself is harmless and hardly inflammable as. Ambient fire may liberate hazardous vapours. If larger quantities of the product are on fire, the formation of nitrous gases and ammonia is possible.
Special equipment to protect firefighters: Do not stay in dangerous zone without suitable chemical protecting clothes and selfcontained breathing apparatus.
Other information: Contain escaping vapours with water.
Prevent fire-fighting water from entering surface water or groundwater.
Environmental precautions: Ensure that the product does not reach the ground-water, water bodies or the drainage system.
Methods for cleaning up/taking up: Take up with absorption media;. Disposal of contaminated material as waste according to section 13.
Additional hints:

SAFETY DATA SHEET

according to EC Directive 2001/58/EC

Date of issue: 30-01-2003

revised on: 02-04-2008

Page: 2 of 4

Trade name: WUXAL[®] Microplant
Product-No.: 21829

7 Handling and Storage

Handling

Advice as to safe handling: Wear suitable protecting clothes. See section 8.
Avoid substance contact, dont inhale vapours/aerosols.

Advice to prevent fire and explosion: No further requirements.

Storage

Stockrooms and containers required: Temperature not below +5°C and above +40°C.
Protect the product from impurity and drying up. Keep containers densely closed.
Do not store in metal containers (corrosion risk).

Storage together with other materials: Do not store together with food and luxury food, beverage and animal feed.

8 Exposure Controls/Personal Protection

Exposure limits

The preparation contains no constituents with occupational exposure limits resp. biological occupational exposure limits requiring monitoring.

Personal protective equipment

Respiratory protection: Not required. Respiratory protection necessary at aerosol and wet fog formation.

Hand protection: Rubber or plastic gloves

Eye protection: Safety goggles

Skin and body protection: Closed working clothes

Preventive and hygiene measures: Do not eat and drink at work. Remove immediately soiled and soaked clothes. Wash hands and face after work.

9 Physical and Chemical Properties

Appearance

Form/physical state: Aqueous crystal suspension

Colour: Green to brown

Odour: Product-specific

Data relevant to safety

pH (original state): Approx. 6,5

pH at 16 g/l H₂O and 20°C: Approx. 7

Change in physical state: > 100° C evaporation of water

Boiling point/-range: Not determined °C

Melting point/-range: Not determined °C

Flash point: Not applicable °C

Inflammability: Not determined

Ignition temperature: Not determined °C

Self-ignition: The product is not spontaneously inflammable.

Fire-promotive properties: The product is not fire-promotive.

Explosion hazard: The product is harmless as a suspension.

Vapor pressure (at °C): Not determined hPa

Density (at 20°C): approx. 1,5 g/cm³

Solubility in water (at 20°C): Approx. 200 g/l

Method:

10 Stability and Reactivity

Conditions to avoid: Temperatures above +40°C. Keep the product from drying up.

Materials to avoid: Alkalis

Hazardous decomposition products: Reacts with alkalis setting ammonia free.

Thermic decomposition products: If larger quantities of the product are on fire, the formation nitrous gas and ammonia is possible.

Further information: No decomposition if correctly used. The product is stable under normal conditions.

SAFETY DATA SHEET

according to EC Directive 2001/58/EC

Date of issue: 30-01-2003

11 Toxicological Information

Toxicological tests

Acute toxicity

Quantitative data on the toxicity of this product are not available.

Property that must be anticipated on the basis with comparable preparations:

LD50 (oral, rat): >10.000 mg/kg

Further toxicological information

After inhalation of vapours/aerosols: Slight irritations of the mucous membranes and coughing.

After skin contact: Slight irritations.

After eye contact: Slight irritations.

After swallowing: We have no description of any toxic symptoms.

Property which must be anticipated on the basis of structure-effect considerations:
disturbed electrolyte balance.

After uptake of large quantities: Slow absorption. Disturbed electrolyte balance.

Further data

Further hazardous properties cannot be excluded.

The product should be handled with the care usual when dealing with chemicals.

No toxicological effects are to be expected when the product is handled and used with due care and attention.

12 Ecological Information

Ecotoxic effects

Quantitative data on the ecological effect of this product are not available.

Biological effects:

The following applies to copper, manganese and zink ions in general:

Toxic for aquatic organisms. May cause long-term adverse effects in the aquatic environment.

Further ecologic data

The following applies to ethylenediamintetraaceticacid salts in general:

Biologic degradation: Slightly biodegradable.

Slightly eliminable (DOC reduction <20%)

Ensure that the product does not reach the ground-water, water bodies or the drainage system.

No ecological problems are to be expected when the product is handled and used with due care and attention.

13 Disposal Considerations

Product

Recommendation:

Disposal of product rests in accordance with the official local disposal regulations.

According to european waste regulations:

Waste Code (EWC-No.): 061000

Waste Name: Wastes from the manufacture, formulation, supply and use of nitrogen chemicals, nitrogen chemical processes and fertiliser manufacture.

Contaminated packaging

Recommendation:

Disposal of contaminated packages in accordance with the local official disposal regulations.

Cleaners:

Water

14 Transport Information

Surface transport:

No hazardous good.

River transport

No hazardous good.

Sea navigation transport:

No hazardous good.

Air transport:

No hazardous good.

Further information:

The transport regulations are cited according to international regulations and in the form applicable in Germany (GGVS/GGVE). Possible national deviations in other countries are not considered.

15 Regulatory Information

EC Directives

Directive 67/548/EEC

Danger symbol and designation:

No labelling duty according to the EC-Hazardous Materials Regulation.

contains R-phrases: None

contains S-phrases: None

Directive 96/82/EC and

None

SAFETY DATA SHEET

Trade name: WUXAL[®] Microplant
Product-No.: 21829

Directive 2003/105/EC
(Seveso II)

National regulations Germany

Particular labelling of certain
preparations:

No labelling duty according to the Hazardous Materials Regulation (Germany).

Employment limitations: None

Interference regulations – BimSchV: None

Classification according to VbF: None

Technical Regulations Air: None

Storage class according to

VCI-concept:

12 Liquid product with no fire risk.

Water pollution class:

WGK 1 - slightly water polluting preparation

(own classification)

Further regulations, limitations and
prohibition regulations:

None

Water pollution class:

WGK 1 - slightly water polluting preparation

(own classification)

Further regulations, limitations and
prohibition regulations:

None

16 Other information

Reason for alteration

Addition in the chapter toxicology.

Addition in the chapter ecology.

General update.
